

Supplementary - 2

Supplementary Figure 3. Additional Data of Reproductive Performance

The dotted line in $y = 1.171$ in 'Pleural Effusion Viral Load in Dead Fetus' indicates the threshold corresponding to $Ct = 35$. Statistical analysis was conducted using Kruskal wallis one-way ANOVA (non-parametric) followed by Dunnett's multiple comparisons test in GraphPad Prism version 10.6.5 for MacOS, GraphPad Software, Boston, Massachusetts USA, www.graphpad.com. Different letters indicate significant differences between groups ($P < 0.05$)
